The 4 Easy Steps

EDC Homes understands that you want your own special place that reflects your style and taste.

Our process allows you to describe what you want, the design team draws it, you approve it, and **EDC Homes** builds it.

1. Design Consultation

An idea session to identify the scope and estimated budget range of your project.

2. Design and Planning

The Design Team is selected and ideas are transformed into a preliminary schematic floor plan.

Design selections, specifications, full construction plans are made, while bids are submitted for final pricing.

3. The Main Event

The **EDC Homes** Team transforms your plans into reality.

4. The Reward

The project is completed on time, on budget, and **EDC Homes** has earned your 5-Star review.
